Every choice we make has an impact. Keep an eye out for these certifications to gain a deeper understanding of the environmental credentials of our products.

Renewable – made using renewable materials from the biosphere.

Examples: Napkins, tablecovers and paper cups.

Compostable – certified EN 13432 or ASTM D6400 as compostable in industrial facilities. Or, when labelled with OK compost HOME, on your compost heap at home.

Examples: Bio tissue napkins, Dunisoft® napkins and paper cups.

Responsibly sourced – part of a certification scheme, which assures responsible social and environmental practice in forestry or plantation.

Examples: FSC® -certified forest fibres used for napkins, tablecovers and paper cups.

Resource efficient – made from recycled or waste materials that show clear resource efficiency compared to standard alternatives.

Recyclable – means that the material from the product can be used to form new products. Recycling depends on the local infrastructure. Always consult a local waste handler.

Brighten up your sustainable table with BIO Dunisoft® Unicolours

Sustainability is on the rise. And with the new range of Bio Dunisoft® unicolour napkins we continue our pioneering work. Made from fossil-free, renewable materials, they help lower your impact on the planet while still creating a delightfully colourful festive atmosphere. Stay sustainable without compromising on style, quality or colour.

Here's to new beginnings!

While the past few years have been challenging, they've also been a catalyst for creativity and new eco-conscious solutions. And taught us the benefits of embracing nature and simplicity. Paying homage to this and introducing a sense of playfulness and mood-boosting designs, the new collection is sure to bring both joy and excitement. Here's to new beginnings!

Press pause, sit back and take in the surroundings. Wild simplicity introduces prints that manage to be both soothing and swanky. Stripped back, unrefined and honest. Proof that "simplicity is the ultimate sophistication".

Playfulness and bright colours take center stage as New Era delivers a fresh take on traditional and classic prints, sparking feelings of pure bliss and happiness. With their occasional nod to the 70's and 80's, funky shapes and floral pops, these designs will add a certain oomph to your next get-together.

Finding inspiration in nature and the ideals of preservation Flourish invites us to a world full of vibrant flowers and sweet vitality. Seasoned with modern sophistication the patterns range from delicate florals to checks and classic stripes. Stylish designs and sustainability do go hand in hand.

Quality and style never go out of fashion - Duni Classics are simply timeless! These beautifully crafted designs add elegance and a dash of vintage nostalgia to all those special, festive occasions. Safe yet daring. Timeless.

"After a period of uncertainty and crises it is now time to release all the emotional constraints of our past and move into a world full of color, playfulness and joy. In our year round 2023 collection creativity is flourishing, as we both slow down and honor the simplicity and beauty of slowcraft, as well as boost ourselves with colors of happiness for a bright future. Welcome!"

A dining table is set with a light-colored tablecloth featuring a delicate pattern of yellow daffodils and white daisies with green leaves. The table is set for two people. Each place setting includes a grey ceramic plate, a smaller white plate with a textured rim, and a yellow napkin with a floral pattern. Silverware, including a fork and a knife, is placed on either side of the plates. Two wine glasses filled with white wine are positioned in the center. CERTIFICATIONS THAT DRIVE SALES

The products in our collection carry a variety of environmental and quality certifications. Here you can find out what they mean.

The OK Compost label, from the certification body TÜV Austria, indicates that the product is suitable for industrial composting and meets the stringent requirements of the European standard EN 13432.

We now offer napkins with the OK compost HOME label. You can compost these at home. For instance, by putting them on the compost heap in your garden. This is because they compost at lower temperatures than used for industrial composting.

The Forest Stewardship Council® (FSC) certification ensures the product is made of wood from forests managed in an environmentally appropriate, socially beneficial and economically viable manner.

The Nordic Swan Ecolabel identifies the best products on the market from an environmental point of view. For instance, it confirms our stearin candles consist of at least 90% renewable materials and minimise soot emissions.

The RAL Quality Mark is awarded by the European Quality Association for Candles. It guarantees the candle burns cleanly, contains no hazardous materials, retains its shape and is safe and reliable.

We've tested a selection of our glasses and cutlery and are happy to confirm they can withstand washing in a household dishwasher at 60°C up to 50 times. After that, please recycle them!
