Winter trends

CRIMSON JINGLE

In the soft light of candles and shadows, a new kind of Christmas unfolds, mixing dark glamour with tradition and mystery. The season slows down, inviting us to enjoy every moment. A touch of sparkle and the beauty of shadows create a timeless, unforgettable atmosphere.

ALPINE MOOD

This holiday season brings a cozy, alpine cabin feel, blending the warmth of a fire with the crisp air of snowy pine forests. The decor reflects nature, with natural materials like wood, straw, felt, and wool, moving away from shiny finishes and synthetic textures. This approach emphasizes simplicity, warmth, and a connection to nature. Consumers are bringing back heirloom or vintage-inspired decorations that remind them of family traditions and past holiday memories.

New design

Noble Tree

Bring the holiday spirit to the table. A bright red with shiny golden details, here to set the mood and elevate the festive season. Timeless and always right on point.

CERTIFICATIONS THAT DRIVE SALES

The products in our collection carry a variety of environmental and quality certifications. Here you can find out what they mean.

We now offer napkins with the OK compost HOME label. You can compost these at home. For instance, by putting them on the compost heap in your garden. This is because they compost at lower temperatures than used for industrial composting.

The Forest Stewardship Council® (FSC®) certification ensures the product is made of wood from forests managed in an environmentally appropriate, socially beneficial and economically viable manner.

The Nordic Swan Ecolabel identifies the best products on the market from an environmental point of view. For instance, it confirms our stearin candles consist of at least 90% renewable materials and minimise soot emissions.

The RAL Quality Mark is awarded by the European Quality Association for Candles. It guarantees the candle burns cleanly, contains no hazardous materials, retains its shape and is safe and reliable.
